

Nwabuisi Ikechukwu Emmanuel

Front-End Developer

Enugu, Nigeria nwabuisiikechukwu66@gmail.com 08109619626 github.com/perristtech.dev

Available for freelance / open to work

PROFILE

Front-end developer and Computer Engineering student building toward a web development and conversion-focused digital agency. Experienced in HTML, CSS, and responsive design, with growing skills in JavaScript, React, and UI/UX. Comfortable working across the full picture of a device — from front-end code down to the hardware it runs on — with hands-on experience in phone repair and hardware troubleshooting alongside software development.

EXPERIENCE

Front-End Developer — CodeX Tech Foundation Jul 2026 - Present

Design and develop responsive, interactive, user-focused interfaces for the organization's digital products. Translate designs and product requirements into functional web interfaces, build reusable components, implement responsive layouts, and integrate frontend applications with backend services and APIs.

- Contribute to frontend architecture, UI improvements, performance, and accessibility.
- Collaborate with a development team to turn ideas into working products.
- Work with React, Supabase, and GitHub in a team-based development workflow.

PROJECT

Caritas University Clearance System — Front-End Developer In Progress

A digital exam clearance system for Caritas University that replaces a manual clearance workflow with a centralized platform for managing student clearance status and digital exam access. Built with React, TypeScript, Supabase, and GitHub.

- QR-based exam pass verification for fast clearance checks at examination halls.
- Role-based access control for students, clearance officers, exam officers, and administrators.
- Real-time clearance status updates (Approved / Pending / Deferred).

SKILLS

Web Development

HTML, CSS, Responsive Web Design, JavaScript, React, Basic UI/UX Design

Tools

Git, GitHub, Figma

Hardware & Technical Support

Phone Repair & Troubleshooting — diagnose and resolve common smartphone hardware and software issues.
Hardware Diagnosis & Maintenance — troubleshoot hardware faults and perform basic device maintenance and repairs.
